264 COMPOUND

RichardsApex 264 is a viscous oil fortified with extreme pressure, anti-wear, and other friction modifiers. **RichardsApex 264** is generally used in the "as received" form for all drawing of stainless steel, nickel, and other difficult alloy steels. **RichardsApex 264** is well suited for heavy reductions on stainless steel tube drawing of both mandrel and plug draws.

BENEFITS:

Highly fortified extreme pressure lubricant

Suitable on a wide variety of difficult operations

Provides maximum die life on stainless steel and difficult alloys

RECOMMENDED USES:

Stainless steel tube drawing, sinking, mandrel and plug

Stainless steel shaped draws and bright drawing stainless bars

Difficult alloy hex draws where maximum EP is needed

TYPICAL SPECIFICATIONS:

Specific Gravity	1.3
Appearance	White Grease
Viscosity (SUS) @ 100°F (38°C)	Pourable
