

RK SERIES

RichardsApex RK Series is a low viscosity rolling lubricant for non-ferrous metals formulated with lubricity additives, and metal deactivators. The surface of the rolled metal will have an excellent color, and the residual lubricant film will maintain the brightness properties due to an extremely effective metal deactivating system.

Benefits

Use “as received”

Ash, sulfur and chlorine free

Excellent lubricity properties

Produces a bright, clean surface

Leaves drier residue as compared to traditional products

Prolonged protection of tooling

Can be used in light gauge stamping of non-ferrous metals

Recommended Uses

Rolling or stamping of non-ferrous metals using the material as received.

Specifications

<i>Product</i>	<i>Viscosity (38°C/100°F)</i>
RK40	4.7 cSt (40SUS)
RK60	11.2 cSt (60 SUS)
RK70	14 cSt (70 SUS)
RK75A	15.3 cSt (75 SUS)
