## VAS25 COMPOUND

**RichardsApex VAS25** is a clear-yellow, mobile liquid, natural soap based product. It dissolves in water to give transparent solutions possessing low surface tension and fast wetting properties. Work fabricated with **VAS25** is clean and bright and can be painted or enameled without washing.

### BENEFITS:

- Low surface tension, fast wetting
- Good lubrication properties from polar ingredients
- Easily cleaned

### RECOMMENDED USES: (1 Part VAS25 to 5-30 Parts water)

- Deep drawing of stainless steel and nickel alloys
- Ultra fine wire stainless steels
- Armoring, grinding and stamping

### TYPICAL SPECIFICATIONS:

Ph 3% solution in deionized water	9.7
Free Fatty Acid (FFA)	0.6%
Appearance (when cool)	Clear gel
