VAS-TD COMPOUND

RichardsApex VAS-TD is an amber, water miscible lubricant specifically designed for use in the electronic and nuclear industries

BENEFITS:

Made with deionized water, for drawing operations that require a completely ash free lubricant

Does not contain sulfur, chlorine or any metallic salts

Completely water soluble and forms a stable emulsion

RECOMMENDED USES:

Stamping and Deep Drawing - Use 1 part of VAS-TD to 3 – 5 parts of water

Wire Drawing - Use 1 part so VAS-TD to 10 – 20 parts of water

Also recommended for use in tube expanders in rolling tubes

TYPICAL ANALYSIS:

Ash	Nil
Chlorine	Nil
Sulfur	Nil
Specific Gravity	0.96
