201 COMPOUND

RichardsApex 201 is a clear straw-colored medium viscosity oil, fortified with extreme pressure, anti-wear, and other friction modifiers. RichardsApex 201 is generally used in the "as received" form for all drawing, forming, and perforating of stainless steel, nickel, and other difficult alloy steels. It can also be used as an additive to fortify other oils. RichardsApex 201 is well suited as an additive to other oils.

Benefits

Highly fortified extreme pressure lubricant in a medium viscosity

Suitable on a wide variety of difficult operations

Provides maximum die life on stainless steel and difficult alloys

Additive for other oils

Recommended Uses

Bright drawing stainless wire and stainless tubing

Drawing of stainless steel bars and hex with no lime coating

Stamping and deep drawing of stainless and nickel alloys

Stainless steel and alloy spring forming

Perforating stainless steel

Specifications

Density	1.4 kg/L	11.7 lbs/gal
Viscosity (38°C/100°F)	1,850 cSt	8,500 SUS
Appearance	Clear straw
