CG248CT COMPOUND

RichardsApex CG248CT is a medium viscosity, soluble oil, weighing approximately 7.92 pounds per gallon. It is a specially formulated soluble oil for use in grinding applications where an extremely high finish is desired.

Through controlled detergency, CG248CT is capable of giving finishes under controlled conditions down to a 0.5 microinch. This is desirable for such applications as rolls, which are to be subsequently used in the production of plastics, sheet metals and non-ferrous rod.

Recommended Uses

Grinding of Steel

Use CG248CT in water at a rate of 1% - 5% by volume.

The Information presented herein is based on our own research and the experience of others and is believed to be accurate.
